

# Christmas Eve

*Blackmore's Night*

Say goodbye to November  
She must be on her way  
Cold winds of December  
Feel like they're here to stay  
Me, I'll just carry the snowflakes  
As they start to fall  
Getting lost in the beauty,  
The magic of it all

And our eyes fill with wonder  
As the reindeer take to flight

**Refrain:** **Christmas Eve, bells will ring**  
**Through the town we gather to sing**  
**Christmas Eve has begun**  
**Peace and love to everyone**

Light the festive candles  
They'll chase the shadows away  
Gathering round the yule log  
With handfuls of holly  
Winter winds will whisper  
Through the shivering pines  
Never have the stars  
Looked brighter than tonight

And our eyes fill with wonder  
As the reindeer take to flight

**Refrain:**

*<4-line piano instrumental>*

And our eyes fill with wonder  
As the reindeer take to flight

**Refrain:** **Repeat twice**
